## **Dani Cancer Research Fund**

(Rycroft's Little GTO)

The Animal Cancer Care and Research (ACCR) program provides cutting-edge care to animals with cancer and conducts research in the area of oncology where humans and animals interface. This unique program leverages current areas of expertise within the University of Minnesota system, but draws heavily from the College of Veterinary Medicine and the Masonic Cancer Center. The Dani Fund will support the ongoing research of Dr. Modiano and the ACCR, with a focus on the human-canine connection in cancer research and treatment.

Together, we can make a difference! Donations are tax deductable, www.cvm.umn.edu/accr

Dani Cancer Research Fund	
Name:	□ \$250 Fund # 2001
Address:	□ \$100
City/St/Zip:	□ \$75
